

London, 30 Sept. 1863.
Plough Court, Lombard Street.

Dear Sir

In consequence of the information
you kindly sent me about a year ago,
I have had some correspondence with
Mr. Chas. Wright, now in Cuba,
respecting Myrospermum.

In a letter which I received from
him by last mail, he says that he
has obtained some "rather miserable"
specimens of m. tohuiferum from
a Dr. Morales, — that he has

sent them to you, and that from
you I may probably procure
one. - If you can so favour
me, I shall feel grateful for
your kindness, and shall be glad
to reciprocate by sending something
in Exchange, if you will mention
any channel through which I can
do so. as to the M. foliiferum
perhaps that you could send me
in a letter.

Did you know the late M^r. Sutton
Hayes? The residue of his
plants has been sent me, in
order that I may, if possible,

dispose of them, but they are in
deplorable condition, and I hardly
know what I can do with them.

Believe me to remain, dear Sir,

Yours very sincerely
Dⁿ Hanbury

D^r. Asa Gray
